Islamabad, Pakistan

Summary

I have a Computer Science background and experience working with the MERN Stack. I've built projects using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB, covering both frontend and backend development.

Working on different projects has helped me improve my coding, debugging, testing, and problem solving skills. I'm currently looking for a MERN Stack Internship or Junior Web Developer role where I can work on real projects, learn from experienced developers, and improve my skills further.

PROJECT & EXPERIENCE

- Data Mining for Favorite and Safe Places Prediction in Tourism Industry**2025 – 2026 | FYP
Final Year Project | MERN Stack
 - Developed a full-stack tourism platform using **MongoDB, Express.js, React.js, and Node.js**, featuring authentication, tour management, online booking, and user reviews.
 - Implemented a **recommendation engine** combining booking popularity and **NLP-based sentiment analysis** to identify safe and popular tourist destinations.
 - Designed an **admin analytics dashboard** with interactive visualizations for bookings, reviews, popularity trends, and destination insights.
- E-Commerce Web Application — Personal MERN Stack Project**2024 – 2026
 - Built a full-stack e-commerce web application using MongoDB, Express.js, React.js, and Node.js, covering product catalog, shopping cart, and checkout flow.
 - Implemented user registration and login, and structured the backend around RESTful APIs connecting the React frontend to a MongoDB database.
 - Tested core workflows end-to-end to verify fixes and catch edge cases before treating features as complete.

Education

- Bachelor of Science in Computer Science (BSCS)**2022 – 2026 | Abbottabad
COMSATS University Islamabad, Abbottabad Campus
- Diploma in Information Technology (DIT)**2021 – 2022 | Peshawar
Capital Degree College, Campus II
- Intermediate in Computer Science (ICS)**2020 – 2022 | Peshawar
Islamia College Peshawar
